SHUHARI FINANCE

PRIVATE LIMITED

1. Objectives & Scope

Shuhari Finance Private Limited (“**SFPL**”, “the **Company**”, “**we**”) is committed to providing customers with high-quality, transparent and efficient service, and to resolving grievances fairly and within defined timelines. This Grievance Redressal Policy (“this **Policy**”) establishes company-wide minimum standards and processes for managing complaints in a timely and fair manner, consistent with applicable laws, regulations and supervisory expectations.

This Policy also defines the governance and oversight structure for grievance management across the Company and delineates grievance-related responsibilities. It applies to all SFPL products, services and related business activities, including lending offered through the NIRA digital lending platform, which is operated by Shuhari Tech Ventures Private Limited (“**STVPL**” / “**NIRA**”) as SFPL’s Lending Service Provider (“**LSP**”).

2. Regulatory Framework

This Policy is framed to give effect to the grievance-redressal requirements applicable to SFPL as an NBFC and as a Regulated Entity engaged in digital lending. The principal instruments include:

- **Digital lending requirements** — the Reserve Bank of India’s framework on digital lending, requiring a designated Grievance Redressal Officer (GRO), display of GRO details, and a nodal grievance officer at the Lending Service Provider under the Reserve Bank of India (Non-Banking Financial Companies – Credit Facilities) Directions, 2025.
- **NBFC conduct requirements** — the Board-approved grievance redressal mechanism, GRO appointment and escalation-matrix display expected of NBFCs Reserve Bank of India (Non-Banking Financial Companies – Responsible Business Conduct) Directions, 2025.
- **RBI Ombudsman** — Reserve Bank - Integrated Ombudsman Scheme, 2026 (“**RB-IOS**”), under which a complainant may approach the RBI Ombudsman where a complaint is not resolved within 30 days or the resolution is unsatisfactory.

Where this Policy is silent or less stringent than an applicable law or regulation, the more stringent requirement prevails.

3. Definitions

Complaint: A written or oral expression of dissatisfaction, or an allegation of wrongdoing, misconduct or mismanagement, made by a customer concerning a product or service offered by SFPL or by a Service Provider acting on its behalf (including the LSP).

Inquiry: A request from a customer or another party for information or assistance regarding a product, service, policy or practice. An inquiry is not a complaint unless it expresses dissatisfaction or alleges wrongdoing.

Grievance: Used interchangeably with “complaint” in this Policy.

Complainant: The customer or authorised representative who raises a complaint.

Lending Service Provider (LSP): STVPL, operating the NIRA platform, which handles front-line customer interaction, intake and first-level resolution on SFPL’s behalf.

Grievance Redressal Officer (GRO): The officer designated by SFPL as ultimately responsible for grievance redressal under applicable RBI requirements, whose contact details are publicly displayed.

Nodal Grievance Officer(s): The officer(s) at the LSP responsible for day-to-day grievance handling and escalation to SFPL.

4. Governance & Oversight

Board of Directors

SFPL’s Board of Directors (“the **Board**”) is responsible for actively overseeing the Company’s grievance-management framework, consistent with SFPL’s strategic objectives and risk tolerance. To discharge its duties in relation to grievances, the Board will:

- Set the “tone from the top” to promote a strong culture of compliance and fair customer treatment;
- Receive, review and provide credible challenge to periodic reports on complaints — including patterns and trends and the actions taken to mitigate conduct, compliance, legal, reputational and other risks that complaints may indicate; and
- Oversee the Company’s timely remediation of compliance issues surfaced through complaints.

Compliance Committee

The Compliance Committee is a management-level committee responsible for overseeing and monitoring the performance of SFPL’s grievance-management framework.

- Review and approve this Policy at least annually;

- Oversee compliance training generally, with particular emphasis on role-specific training for staff responsible for identifying and managing complaints;
- Monitor complaint and dispute levels, drivers and trends;
- Oversee management's implementation of risk-mitigation activities in respect of issues identified in complaints-related reports;
- Actively monitor the adequacy of grievance-management resources, skills and capabilities across SFPL and the LSP; and
- Escalate high-risk grievance-related matters to the Board, as appropriate.

5. Roles & Responsibilities

Grievance Redressal Officer (SFPL)

SFPL designates a Grievance Redressal Officer (GRO) and has overall responsibility for the design and oversight of the grievance-management framework, including to:

- Establish, maintain and oversee the effectiveness of the framework, including procedures and standards that govern complaints;
- Advise the first line on grievance management, including the investigation of, and responses to, escalated complaints;
- Monitor and test the LSP's and Support functions' adherence to this Policy and supporting procedures, including performance measures such as response timelines;
- Perform company-wide analysis of complaints data to identify trends, patterns, emerging risks, deficiencies and opportunities for improvement;
- Identify issues surfaced during complaints review in line with SFPL's issues-management process;
- Establish a common taxonomy and data requirements to enable aggregation and analysis, and maintain a centralised complaints repository;
- Develop company-wide complaints training and, with the Support functions, design and disseminate role-specific training;
- Report complaint levels, drivers and trends to the Compliance Committee and the Board; and
- Ensure the GRO's contact details are prominently displayed on SFPL's and NIRA's websites, in the NIRA app, and in loan agreements, Key Fact Statements and sanction letters.

First Line — Customer Support & Collection Support

First-line teams own intake, acknowledgement, first-contact resolution and tiering, and escalate to the Compliance / GRO function where a matter is high-risk, systemic, or involves regulatory, legal or consumer-harm concerns.

Second Line — Compliance

Compliance provides credible challenge, advisory support on investigations and root-cause analysis, independent monitoring and testing, and company-wide reporting.

6. Complaint Channels & Touchpoints

Complaints are received through a variety of verbal and written means. Front-line intake is handled via three channels — email and calls — managed through the CRM portal across dedicated departments. **Calls are responded to instantly; queries and complaints requiring internal investigation are raised as tickets in the CRM portal for resolution.**

Complaints are also received through NIRA in-app and through external channels including the RBI Ombudsman (under RB-IOS). Complaints from these external and regulatory channels are treated as Tier 1 (see Section 7).

7. Grievance Resolution Process

This Policy establishes a common framework for the management and oversight of complaints. The stages are: intake; tiering; acknowledgement and handling; investigation and escalation; resolution within turnaround times; grievance-officer and Ombudsman escalation; aggregation and analysis; and reporting.

7.1 Intake

Intake begins with identifying a verbal or written expression of dissatisfaction or alleged wrongdoing as a complaint, and recording it — with its date of receipt — in the CRM portal, SFPL's designated complaints system of record. First-line responsibilities are to:

- Record receipt of the complaint, including the receipt date, together with the required data fields set out in the supporting Grievance Redressal Procedures;
- Make an initial assessment to understand the principal driver of the dissatisfaction;
- Resolve the complaint at first point of contact where possible;
- Acknowledge receipt in a timely manner (see the TAT Matrix); and
- Escalate to the appropriate internal owner (e.g. Product, Collections, Compliance) in a timely manner.

REGISTERED OFFICE ADDRESS

36/5, Somasundarapalya Main Road, 27th Main Road, Karalukunte Village, HSR Layout, Bangalore, Karnataka, India, 560102

Tier 1 complaints (those from regulatory bodies, the RBI Ombudsman, RBI, Consumer Courts or other Indian regulatory authorities) are owned by the Grievance Redressal Officer (GRO) and investigated by the Internal Quality / LSP team, with Compliance acting as an independent gatekeeper over their resolution and any regulatory response (see Section 7.3). If received through a front-line channel, the front-line team promptly forwards the complaint to the GRO and Compliance, and it is recorded in the system of record.

7.2 Tiering

Complaints are tiered using the following definitions:

Tier	Definition
Tier 1	Complaints received through regulatory bodies, the RBI Ombudsman, RBI, Consumer Courts or other Indian regulatory authorities.
Tier 2	Complaints, not otherwise Tier 1, that meet one or more of the following: - Directed to a member of the Board or to an executive officer; - Threats to file with governmental or regulatory agencies; - Allegations of a violation of law or threats of litigation; - Allegations of unfair treatment, deception, discriminatory behaviour, abusive practices or other matters indicating a potential regulatory-compliance issue; or - Allegations of misconduct such as improper sales practices or unauthorised product enrolment / account opening.
Tier 3	Any complaint, not otherwise Tier 1 or Tier 2, expressing material dissatisfaction with SFPL's products, services or business practices.

7.3 Acknowledgement & Handling

The following workflow applies to Customer Support. Where any stage requires investigation, a ticket is raised in the CRM portal.

Stage	Handler	Action
Acknowledgement	Customer Support	First acknowledgement sent to the customer via CRM within 24 hours (business hours); after office hours, replied on the next working day.

Stage	Handler	Action
Normal query (Customer Support)	Customer Support team	Responded directly by the Customer Support team within TAT.
Complaint (Customer Support)	Customer Support + internal teams	Internal team investigates, contacts the customer, and resolves with support of relevant internal teams within TAT.
Collection complaint (e.g. harassment)	Collection Support + Quality	Internal Quality team investigates the facts and contacts the customer by call/email; resolves within TAT with documentation via email. Where a discrepancy is found, action is taken as per Company policy (verbal/written warning, full or partial payout deduction, or termination).
Tier 1 Complaints/ RBI Escalations	GRO (owner) + Internal Quality / LSP team (investigation); Compliance (gatekeeper)	The Internal Quality / LSP team investigates the facts, contacts the customer, and drafts the proposed resolution and the draft RBI response; The GRO reviews and owns the resolution; Compliance provides independent clearance before any response is issued to the customer or the RBI (see the gatekeeping note below).

Compliance gatekeeping for Tier 1 / regulatory complaints. Tier 1 and regulatory complaints follow a maker-owner-gatekeeper model that keeps the groundwork with the first line and the GRO while giving Compliance an independent control gate. Compliance is not the doer: it is a standing reviewer with visibility from the moment a complaint is logged, and it holds a release gate.

Maker (groundwork). The Internal Quality / LSP team performs the investigation, gathers evidence, contacts the customer, and drafts both the proposed resolution and the draft response to the RBI / Ombudsman.

Owner. The GRO owns the complaint end-to-end, directs corrective action, approves the resolution and the regulatory response, and is the named point of contact for the regulator.

Gatekeeper. Compliance has read-access from logging and provides independent review and credible challenge. No final response to the customer, and no response or submission to the RBI / Ombudsman, may be issued until Compliance has recorded its clearance in the CRM. Compliance may return the matter with written observations but does not itself investigate, contact the customer or draft the response. To preserve its independence as second line (so that it can later monitor and test grievance handling), Compliance does not assume ownership or execution of individual complaints. Clearance is given within the applicable TAT; if the gate risks breaching a regulatory deadline, the GRO escalates immediately to [the Compliance Committee / designated authority]. All gate decisions (cleared / returned, date, reviewer, observations) are recorded to support monitoring and the CCO's compliance certification.

7.4 Investigation & Escalation

First-line teams perform a thorough investigation of each Tier 2 and Tier 3 complaint and escalate high-risk, seemingly systemic, or regulatory/legal/consumer-harm matters to Compliance. Compliance serves in an advisory role, assisting with research and root-cause analysis for systemic-seeming complaints. For Tier 1 complaints, Compliance reviews the investigation file and the proposed responses, provides credible challenge and clearance (see Section 7.3), and escalates as appropriate to the Leadership Team, the Compliance Committee, the Board, and other interested parties as required.

7.5 Resolution & Turnaround Times

SFPL responds to complaints in a timely manner with thorough, accurate responses that fully address the matter and, where warranted, include appropriate monetary or non-monetary relief. The following turnaround times (TATs) apply:

Nature of complaint	Acknowledgement TAT	Resolution TAT
General / support queries	Within 24 hours (business hours); next working day after office hours	48 working hours
Loan application issues	Within 24 hours (business hours); next working day after office hours	3- 5 working days
Payment / transaction disputes	Within 24 hours (business hours); next working day after office hours	3 working days

Nature of complaint	Acknowledgement TAT	Resolution TAT
Collection / recovery complaints	Within 24 hours (business hours); next working day after office hours	5 working days
Credit-bureau (CIBIL) / credit-reporting issues	Within 24 hours (business hours); next working day after office hours	7-9 working days
Escalated / complex cases	Within 24 hours (business hours); next working day after office hours	7 working days

Regulatory backstop. Irrespective of the internal TATs above, if a complaint is not resolved within 30 days of receipt, or if the complainant is dissatisfied with the resolution, the complainant may escalate to the RBI Ombudsman under RB-IOs. SFPL must inform the complainant of this right in any final response issued prior to or on expiry of the 30-day window, and the final response must include the RBI Ombudsman's contact details and the CMS portal link (<https://cms.rbi.org.in>). Compliance is responsible for ensuring this disclosure appears in all applicable final responses.

7.6 Grievance Officer Escalation

If a customer is not satisfied with the team's resolution, the designated Grievance Officer will reach out, investigate and provide a resolution within the applicable TAT. Officer details are in Section 12.

7.7 RBI / Ombudsman Escalation Handling

Pathway	Process
Directly from RBI	- The SFPL Grievance Team conducts a full investigation, where required through the LSP Team. - SFPL resolves the issue with the customer. - SFPL addresses RBI directly with all required details, within the stipulated TAT.

7.8 Aggregation & Analysis

Analysing complaints and trends, including root causes, helps SFPL identify weaknesses in internal controls, business and operational processes, and potential non-compliance, and prompts corrective action and enhancements to products, practices and service. Compliance is responsible for:

SHUHARI FINANCE

PRIVATE LIMITED

- Overseeing that all complaints are logged and tracked in the CRM portal in accordance with the Grievance Redressal Procedures;
- Aggregating complaints data by product type, intake channel, partner, theme, etc., to assess the complaint environment and the adequacy of controls;
- Analysing aggregated data to identify trends or issues, using both quantitative and qualitative data;
- Determining systemic root causes; and
- Recommending improvements to controls, processes and business practices as needed.

7.9 Reporting

Complaints reporting enables the Compliance Committee and the Board to evaluate whether SFPL is managing complaints in a timely and responsive manner and identifying service issues and potential or actual compliance, reputational and other risks. Compliance develops and maintains company-wide complaints metrics and reports to the Compliance Committee and the Board.

8. Quality Assurance / Monitoring

Compliance monitors and tests grievance-related activities and processes, including adherence to acknowledgement and resolution TATs and the accuracy and completeness of complaint records, and provides credible challenge to first-line execution. Findings are reported to the Compliance Committee and, where material, to the Board.

9. Training

The GRO is responsible for assigning and tracking company-wide complaints training and, with the Support functions, designing and disseminating role-specific training. Impacted staff receive complaints-related training at least annually and more frequently as needed. Training materials and records of completion are retained by the GRO or a delegate.

10. Record Retention

Retention requirements for specific aspects of this Policy are set out in SFPL's Records Retention Policy or in supporting compliance documents. For the avoidance of doubt, complaints-related communications, information and documentation are retained for no fewer than **five** years. Personal data within grievance records is handled in accordance with SFPL's Privacy Policy and applicable data-protection law.

11. Exceptions & Violations

The GRO may grant limited exceptions to this Policy. Exceptions will not be granted where they are likely to result in reputational harm, or in a violation of applicable law or regulation. Any employee who becomes aware of a potential violation of this Policy must report it to the Head of Compliance. The Head of Compliance, in consultation with GRO is responsible for investigating alleged violations. Anyone found to have violated this Policy may face disciplinary action, up to and including termination.

12. Contact Details

All grievance and contact details below must be kept current and displayed on SFPL's and NIRA's websites, in the NIRA app, and in customer documentation.

Level / Team	Contact	Scope
NIRA Help & Support	[support@nirafinance.com] [7259947885]	General customer support
Nodal Grievance Redressal Officer of LSP	Sashikanta Parhi grievance@nirafinance.com	First point of contact for day-day grievances/complaints
Grievance Redressal Officer	Pranaya Kumar Biswal grievance@shuharifinance.com	Escalated / unresolved general queries
RBI Ombudsman (external — last resort)	https://cms.rbi.org.in Toll-free 14448	If unresolved after 30 days or the resolution is unsatisfactory

Registered / office address: Shuhari Finance Private Limited, 3rd Floor, 2nd Building, 36/5 Hustle Hub Tech Park, Somasundarapalya Main Road, adjacent 27th Main Road, Haralukunte Village, Sector 2, HSR Layout, Bengaluru – 560102.

13. Policy Renewal & Governance

The GRO / Head of Compliance is responsible for reviewing this Policy at least annually, making appropriate updates and obtaining required approvals, including from SFPL's Compliance Committee and, where required, the Board.
